 Line Recovery: 23"  
 Maximum Drag: 17.5lb  
 Weight: 360g

### **555 CTM**

Akios's biggest selling casting reels are the S-line 656 CTM/555 CTM, which are a surfcaster's dream due to all the tech spec of brass gears, carbon drag washers, brass, chrome plated corrosion resistant side plates, upgraded stainless power handle and star drag, upgraded spool release spring to stop reel re-engaging during cast, line out alarm, centrifugal brake, fully adjustable magnetic brake adjusted by the turn of the chromed knobby. These models being CT versions have no level wind and therefore have no resistance during cast and will cast to the horizon!

### **656 CTM**

### SPECIFICATION:

Capacity: 300yds/15lb  
 Gear Ratio: 5.3:1  
 Bearings: 2+1  
 Line Recovery: 23"  
 Maximum Drag: 17.5lb  
 Weight: 440g

The S-line 656 CSM has a magnetic braking system adjustable by a chrome knobby on the left hand side plate and can be adjusted before or during the cast and appeals to those who still prefer to have a level wind for even line lay but with magnetic braking.

### **656 CSM**

THE FUTURE OF FISHING  
**INOVA**

Ideal for clip down rigs keeping your hooks in line for casting and releases the hook out on impact. Strong hook and lead link.

**New Strength**  
40kg/88lb

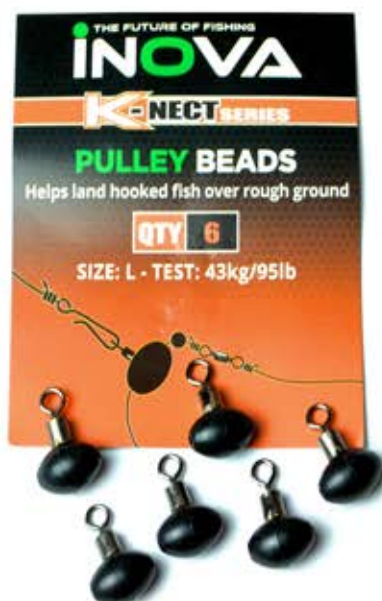

Fast and easy to use and can be used at the top or the bottom of your rigs. Ideal for a speedy set up.

Rapid snood clips with long barrel, easy to handle when changing snoods/rigs. The clip acts as a mini boom keeping snoods away from rig body.

Bait anchor's allow longer baits such as worms to be threaded up the hook length, anchoring them in perfect position.

Add the INOVA pulley bead to pulley rigs to create an extremely effective rig for rough ground.

The Angel Clip allows 2 hooks to be clipped down at the same time close to the lead and releases on impact.
